

John Carter, Dejah Thoris, Tars Tarkas, they are all here! This is the totally unbelievable story of a man who got transported to Mars basically, because he thought it would be cool to go, so he wished it, and POOF, hes there. Then, theres the fact that the planet itself and the life on it are also completely ridiculous. FORGET ALL THAT! Read it to be swept up in one of the greatest adventure series of all time. John Carter goes to Barsoom (Mars, to the Martians) rescues the most beautiful woman in the universe and (later in the series) conquers an entire world through the power of his will and the strength of his right arm. Handsome, powerful heroes, beautiful half naked captive princesses just panting to be rescued, Villians, so evil you want to go back in time to strangle their parents, Big ugly friends, (What are you laughing at, remember Chewbacca?) strange beasts, stranger aliens, wierd science, epic battles, betrayals, great reunions. This ones got it all. The best of Burroughs body of work, the most action packed series from the true master of the action story. Edgar Rice Burroughs is the creator of Tarzan. Dont ever pick up his work expecting an intellectual workout. Just get in and hang on for the ride
