

The integration of drones into society has attracted unprecedented attention throughout the world. The change, for aviation, has been described as being equally as big as the arrival of the jet engine. This book examines the issues that surround this change, for our society and the legal frameworks that preserve our way of life. *Drones in Society* takes the uninitiated on a journey to understand the history of drones, the present day and potential future in order to demystify the media hype. Written in an accessible style, *Drones in Society* will appeal to a broad range of interested readerships, among them students, safety regulators, government employees, airspace regulators, insurance brokers and underwriters, risk managers, lawyers, privacy groups and the RPAS industry generally. In a world first, this book is a light and interesting read; being both relatable and memorable while discussing complex matters of privacy, international law and the challenges ahead for us all.

82nd Airborne (Military Power), They Called Me Red, Befreiung von der Sunde (German Edition), Likutey Moharan (en espanol) volumen I: Lecciones 1 a 6 (Volume 1) (Spanish Edition), Fifty Shades Freed (in Greek), The Definition of Christianity (Myrtlefield Encounters) (Volume 2), Seventeen: A Tale of Youth and Summer Time and the Baxter Family Especially William (Illustrated), Vaughan Intensive English 52 (Spanish Edition), The Life of Saint Katherine (TEAMS Middle English Texts), Ten New England Leaders,
